Communal Cremation

Your pet's remains will not be returned to you, but will be returned to earth in an approved location.

Semi-Private Cremation

A stainless steel cremation disc with a unique ID number engraved on it will remain with your pet throughout the cremation process.

Your pet will be separated by a partition in the cremation chamber. There is no commingling of the remains and at this time there will only be a max of two pets cremated at one time for semi-private cremation.

The remains of only your pet, and the ID disc are placed into a plastic urn that will be included with semi-private cremations. (Additional urns can be purchased for an added fee, please see Products List)

The urn is labeled with your pet's name, date of cremation and the cremation ID number.

A certificate with your pet's name and date of cremation is prepared and signed.
