Pet Cremation Information

Cremation Services

We offer various service options based on your individual needs. Please visit our Cremation Fees page for pricing.

Communal Cremation

Choosing Communal Cremation, your pets cremains will not be returned to you, but will be returned to earth in an approved location.

Private Cremation

Our comprehensive process with Private Cremation ensures that your pet's ashes are returned to you after completion of a thorough and respectful process.

A stainless steel cremation disc with a unique ID number engraved on it will remain with your pet throughout the cremation process.

Your pet will be handled individually in the cremator.

The cremains and the ID disc are placed in a Tree of Life urn. (additional urns and products may be purchased for an added fee, please see our products list) You will also receive one paw print with your private cremation.

The urn will be labeled with your pets name, date of cremation and cremation ID number.

A certificate with your pets name and date of cremation is prepared and signed.
